💡 Projects

👉 TIK-TOK-TOE Game

I have made a Tik-Tok-Toe game using C++ Programming Language in 4th Semester of my Diploma Engineering. It was my first project. The experince of making this game was incredible. I learned lots of many new things while making this game.

Features of this Game:- This Game is single player also a multipler game. You can play this game alone with your Computer

👉 Calculator

I have made Calculator using HTML,CSS & JavaScript it was my first web project in starting of my 5th sem of Diploma Engineering. I have hosted my project on GitHub for free

Features of this Calculator:- This Calculator follows BODMAS Rule which our normal calculator which are installed in our devies dosen't follow.
